Dear Gov. Muehans:

You will see by the enclosed that Martin Luther King's records are to be kept from the public for a period of fifty years. He avoided military service in WW II and Korea - Why?

Why must his records be buried for fifty years?  
What's so bad about his past?

Legal action needs to be taken to open these records to Congress and your Legislature and the Public!

I'd do it but I lack the funds.

Hoping you do something, I

Thank you

Ed. Egan
